UNSTARRED QUESTION NO:4587
ANSWERED ON:11.08.2014
ANTI - DUMPING DUTY ON INDIAN STEEL
Dhruvanarayana Shri Rangaswamy

Will the Minister of STEEL be pleased to state:

(a) whether the United States of America has extended anti-dumping duty on Indian steel for the next five years;

(b) if so, the details thereof; and

(c) the extent to which it is likely to impact Indian steel industry?

Answer

THE MINISTER OF STATE IN THE MINISTRY OF STEEL, MINES AND LABOUR AND EMPLOYMENT (SHRI VISHNU DEO SAI)

(a) Yes, Madam.

(b) The United States of America has extended anti-dumping duty with effective from February 7, 2014 on certain Hot-Rolled Carbon Steel Flat Products exports from India for a period of five years as per the US International Trade Center. The Anti-dumping duty on the product was first levied in 2001. The second sunset review initiated on November 5, 2012, found that for India the weighted average dumping varied from 38.72% to 44.4%, hence the Anti-dumping duty was extended in the range between 29.35% and 43.07% on the Hot-Rolled Carbon Steel Flat Products.

(c) Indian export of Flat rolled products to USA in the year 2013 was 322.42 million US dollars which is around 7.51% share in global export of such products from India. Indian exporters face impact of Anti-dumping duty depending upon their exports of specified Hot Rolled product to USA.
